Mix 1 Gallon VETS CHOICE concentrate per 400 gallons of water.

Mix 1 Gallon VETS CHOICE concentrate per

1 Gallon Concentrate

The above dilution ratios are the minimum amounts recommended. When enhanced performance is desired the concentrate amount can be increased at multiples of 2 until satisfactory results are obtained. Insect response and animal influence varies from one species to another. Application results will determine the preferred formula for the treatment objective. VETS CHOICE IS APPROVED FOR USE ON NEWBORNS AND NURSING MOTHER.

## FOR TREATMENT OF MANGE - MANGE MITES - BURROWING MITES

Treat infected area with full strength VETS CHOICE concentrate using brush or sponge to apply. Apply daily keeping the infected area damp until normal skin and full hair growth is observed. DO NOT RINSE.

## FOR TREATMENT OF LICE AND OTHER EXTERNAL PARASITIC PESTS

Dilute VETS CHOICE concentrate 50% with water. Mix liberally, apply the white paste to the infested area using a brush. Repeat on a daily basis until all lice and nits are dissolved. DO NOT RINSE.

No longer the Vet's Best Kept Secret. VETS CHOICE is a Cedar Oil formula for the Animal Health Industry for control of burrowing insects, Ear Mites, Mange Mites, Burrowing Mange Mites, deep root ear canal infections and other skin issues common to Pets, Poultry, Dairy, Equine, Goats, Sheep, Llamas and all other domestic or exotic mammals.

This product will successfully control Ear Mites, Mange Mites, Burrowing Mange Mites, deep root ear canal infections and other skin issues. VETS CHOICE is approved for use on newborn offspring and the nursing mother. For Cleaning and killing bacteria, mildew and insect infested areas like Kennels, barns, stalls, dairy barns, dog runs and other large areas use our 20 gallon hose end sprayer. ALSO LEAVES THE AREA SPRAYED SMELLING LIKE THE OUTDOOR HILL COUNTRY. Ideal for use on EXISTING wood bedding of farm animals, simply spray down pine and other wood shavings with this formula for the aroma of cedar oil, a natural insect repellent. This product can also be used around your patio, lawn shrubbery, flower and vegetable gardens. This product is used in and around barns and stables to repel mice, rats, heat seeking venomous snakes and numerous insects from areas treated with it. A safe 100% natural cedar oil solution. Treatment will create a barrier of insect re-entry and break the egg layer cycle. Best time to treat is early morning or evening. Do not treat in the middle of the day or whenever it is hot.

VETS CHOICE can be diluted in ratios of 400:1 for Livestock Dipping Stations. VETS CHOICE diluted solutions can be used in grooming of Dogs, Cats and other animals. (2 oz. concentrate to one gallon water) Hand held or back pack sprayer use 4 oz. to 1 gallon water this formula will make 8 Gallons in a hand held sprayer. (each gallon will treat approximately 1000 square feet) When using our 20 gallon Hose end sprayer use 8 ounces fill bottle to top for 20 gallons of product, this formula will make 4 applications for use.
